

Seminar and Discussion

Open for all

Quality education for every child through trust and technology

In March 2022, Seiko Epson Corporation (Epson) signed a comprehensive cooperation agreement with Japan International Corporation Agency (JICA) for the aim of achieving the SDGs.

Epson as the company with the technology strength of efficient, compact, and precise, is trying to accelerate the resolution of social issues such as education and information disparities through the partnership with JICA.

In particular, under such partnership, Epson is exploring the possibility of projection technology as a means of providing education to all. Let us introduce our experimental examples using the projection technology and would like to exchange opinions with you regarding the future possibilities.

Date : **January 22 (Mon), 2024**
3:00 pm – 4:30 pm

Venue : **IDEC/Large Conference Room**

Speaker : **Ms. Chifumi Kobayashi**
Seiko Epson Corporation

エプソンは2022年3月にJICA(国際協力機構)と包括連携協定を締結し、開発途上国の社会課題解決のために協力して活動することになりました。JICAが現地で培った信頼に基づくネットワークとエプソンが80年かけて培った技術を結び合わせ、教育課題の解決を図る活動を実施しております。

特にプロジェクターに関わる事業では、JICA海外協力隊員の力を借りて、プロジェクターを利用した授業の試みをしております。今回、我々の取り組みをご紹介させて頂くとともに、是非、この機会をお借りして広島大学の皆様からのご意見をいただければと思います。
